

By: Magdalena Stenzel **from:** Berlin

To: State Parliaments and German Parliament **in:** Saxon

Subscription period until: 15.06.2018

All State Parliaments and the German Parliament may implement Article 24 paragraphs 3 and 4 of the UN Convention on the Rights of Persons with Disabilities in order to promote the topic of sign language at all levels of education in German-speaking countries.

Reason:

Deaf Girl: "I wish my teachers could speak sign language!"

Father: "Will my child understand her teacher and the other children when school starts?"

From the petition video on YouTube: www.youtube.com/watch?v=s0kn0uJT8Xk

It's all legal - with the UN Disability Rights Convention, deaf children and adults since 2009 have the right in Germany to:

- Sign language acquisition
- Education in sign language
- Sign language teachers

=> At all levels of the education system

Discrimination is not new! For about 140 years (see "The Milan Conference" on the Education of the Deaf) many educators *, specialists * and officials * consider sign language inferior to oral modes of communication and deafness an unfortunate disability. This is a fatal error that affects all German-speaking areas. Although it was legally remedied in 2009 with the UN Disability Rights Convention, the concrete implementation of resources for the Deaf is determined by the state.

Dear readers - you too can contribute something! Sign this petition - for barrier-free education for Lilli, as well as many other children, adolescents and adults, and mothers and fathers in similar situations.

Dear officials, ministers, and administrators - reduce barriers to education and society! Enable barrier-free learning and living! Put Article 24 paragraph 3 and 4 of the UN DRC in Saxony.

As Netzwerk BilingualERleben, consisting of professionals and stakeholders, we are very willing to discuss!

Best regards, Netzwerk BilingualERleben; Spokeswoman Magdalena Stenzel

This petition is supported by the Bundeselternverband gehörloser Kinder e.V.
